The following sections outline activities that are considered an unacceptable use of MQN's services/network/website and also detail the guidelines for acceptable use of certain facilities/services, as the case may be.

3.1 Threats to Network Security

Any activity which threatens the functioning, security and/or integrity of MQN's network is unacceptable. This includes but is not limited to any:

- 3.1.1 efforts to attempt to gain unlawful and unauthorised access to the network or circumvent any of the security measures established by MQN for this purpose;
- 3.1.2 efforts to use MQN's equipment to circumvent the user authentication, or security of any host, network or account ("cracking" or "hacking");
- 3.1.3 forging of any TCP-IP packet header (spoofing), or any part of the header information in an email, or a newsgroup posting;
- 3.1.4 effort to breach, or attempt to breach the security of another user, or attempt to gain access to any other person's computer, software, or data without the knowledge and consent of such person;
- 3.1.5 activity which threatens to disrupt the service offered by MQN through "denial of service attacks"; flooding of a network, or overloading a service, or any unauthorised probes ("scanning" or "nuking") of others' networks;
- 3.1.6 activity which in any way threatens the security of the network by knowingly posting, transmitting, linking to, or otherwise distributing any information or software which contains a virus, Trojan horse; worm, lock, mail bomb, cancelbot or other harmful, destructive or disruptive component;
- 3.1.7 unauthorised monitoring of data, or traffic on the network without MQN's explicit, written consent; and
- 3.1.8 unsolicited mass mailing activity, including direct marketing, spam and chain letters for commercial or other purposes, without the consent of the recipients of those mails.

3.2 Public Space, Third Party Content and Sites

- 3.2.1 In reading this AUP, or in signing a service contract with MQN, you acknowledge that MQN has no power to control the content of the information passing over the Internet and its application, including e-mail, chat rooms, news groups, or other similar fora. MQN cannot be held responsible or liable, directly or indirectly, for any

of the abovementioned content, in any way, for any loss or damage of any kind incurred as a result of, or in connection with your use of, or reliance on, any such content.

3.2.2. Our services also offer access to numerous third party webpages. You acknowledge that we exercise absolutely no control over such third party content, or sites and in such cases, our network is merely a conduit, or means of access and transmission. This includes, but is not limited to, third party content contained on or accessible through the MQN network websites and web pages, or sites displayed as search results, or contained within a directory of links on the MQN network. It remains your responsibility to review and evaluate any such content and that any and all risk associated with the use of, or reliance on, such content rests with you.

3.2.3 Access to public Internet spaces, such as bulletin boards, Usenet groups, chat rooms and moderated forums, is entirely voluntary and at your own risk. MQN does not moderate any of these services, or your communications, transmissions, or use of these services. We do not undertake any responsibility for any content contained therein, or for any breaches of your right to privacy, that you may experience as a result of accessing such spaces.

3.3 Unsolicited, Spam and Junk mail

3.3.1 Spam and unsolicited bulk mail are highly problematic practices. They affect the use and enjoyment of services by others and often compromise network security. MQN will take swift and firm action against any user engaging in any of the following unacceptable practices:

- 3.3.1.1 sending unsolicited bulk mail for marketing, or any other purposes (political, religious or commercial), to people who have not consented to receiving such mail;
- 3.3.1.2 operating or maintaining mailing lists without the express permission of all recipients listed;
- 3.3.1.3 failing to promptly remove from lists invalid, or undeliverable addresses, or addresses of unwilling recipients or a recipient who has indicated he/she wishes to be removed from such list;
- 3.3.1.4 using MQN's service to collect responses from unsolicited e-mail sent from accounts on other Internet hosts, or e-mail services, that violate this AUP, or the AUP of any other Internet service provider;
- 3.3.1.5 including MQN's name in the header, or by listing an IP address that belongs to MQN, in any unsolicited email whether sent through MQN's network, or not;
- 3.3.1.6 failure to secure a customer's mail server against public relay as a protection to themselves and the broader Internet community.

3.3.2 Public relay referred to in 3.3.1.6 occurs when a mail server is accessed by a third party from another domain and utilised to deliver mails, without the authority or consent of the owner of the mail-server. Mail servers that are unsecured against public relay often become abused by unscrupulous operators for spam delivery and upon detection such delivery must be disallowed. MQN reserves the right to examine users' mail servers to confirm that no mails are being sent from the mail server through public relay and the results of such checks can be made available to the user. MQN also reserves the right to examine the mail servers of any users using MQN's mail servers for "smarthosting" (when the user relays its mail via an MQN mail server to a mail server of its own or vica-versa), or similar services at any time to

ensure that the servers are properly secured against public relay. All relay checks will be done in strict accordance with MQN's privacy policy.

- 3.3.3 MQN provides a spam and virus filtering system to protect customers from unsolicited mail and viruses. The customer acknowledges that this system might incorrectly identify a valid message as spam, or as a virus and consequently this message might not be delivered to the customer. The customer acknowledges and agrees that MQN shall without limitation have no responsibility for, or liability in respect of any data lost as a result of this system. MQN reserves the right to examine incoming, or outgoing mail to the extent necessary to determine if it is classified as spam.

3.4 Webmail

- 3.2.1 Webmail and other web based email services made available by MQN are provided on an "as is" basis without representations, warranties or conditions of any kind, and the customer acknowledges and agrees that MQN shall have no responsibility for, or liability in respect of, any aspect of the Webmail services, including without limitation for any lost, or damaged data, or any acts or omissions of MQN. As webmail storage space is limited, some Webmail messages may not be processed, due to space constraints or message limitations.

compliance with all applicable customs and exchange control laws in connection with any such transactions, shall be the customer's.
